The climate control interface displays four seat icons arranged in a 2x2 grid. The top-left icon is a light gray silhouette with a right-pointing arrow, indicating heat for the front passenger seat. The top-right icon is a dark gray silhouette with a right-pointing arrow and a downward-pointing arrow, indicating heat and ventilation for the front driver seat. The bottom-left icon is a light gray silhouette with a downward-pointing arrow, indicating ventilation for the rear passenger seat. The bottom-right icon is a light gray silhouette with a downward-pointing arrow and a fan icon, indicating ventilation for the rear driver seat. Below the icons are two vertical sliders, one on the left and one on the right, each with a blue bar and a white slider knob. Below the sliders are two sets of controls: 'Heat' and 'Vent' for the left side, and 'Heat' and 'Vent' for the right side. Each control has a corresponding icon (hand with heat waves for heat, hand with fan for vent). Below these are buttons for 'Max A/C', 'A/C', and 'Rear'. At the bottom of the screen are 'Sync' and 'Auto' buttons with left and right arrow icons between them.

harman / kardon

RAM

TRX

harman/kardon

A close-up photograph of a car's interior, focusing on a speaker grille. The grille is a dark, perforated mesh with a silver-colored border. The text "harman/kardon" is printed in white on the grille. The surrounding area is a dark, textured material, likely leather or a similar synthetic material, which is part of a car seat. The lighting is dramatic, highlighting the texture of the materials and the fine details of the speaker grille.
